Unity is a positive alternative to traditional forms of Christian thinking and worship. Our services are informal, contemporary, and very positive. Unity teachings are based on the teachings of Jesus, as found in the Gospels. We believe Jesus taught a universal message of love with a deep trust, based in his connection to his higher, inner Source. Our goal is to deepen our connection to this higher inner Source.

The Unity tradition is one of silent prayer and connection. Our services at UKV include great music, a positive lesson, and a time for quiet reflective prayer.

There are no creedal statements in Unity, since we recognize that everyone is on his or her own path of spiritual discovery. We do have several statements that seem to sum up the Unity approach for many. A favorite is: "It's all good!"
